

Wired Push-to-talk Discussion Microphone

Adding a conference microphone system to your meeting encourages orderly participation, ensures perfect audio intelligibility, and supports effective conversation. All delegate units have a detachable stem microphone, a built-in speaker (mutes when the mic is on), a microphone activation button and a headphone jack with volume control. Contact us to learn how push-to-talk microphones can enhance your next event.

Product Highlights

- > Plug and play, daisy-chain connectivity for quick setup
- > Microphone sensitivity and EQ individually adjustable
- > Built-in loudspeaker and headphone jack for assistive listening
- > Option to select the microphone activation mode and number of active microphones from main unit.
- > LED light rings indicate when the microphone is active.

Services and Benefits

- > Adding conference software offers request-to-speak lists, speech timers, video tracking and much more
- > Give the head of the meeting a chairman microphone which allows them to mute or turn off all other microphones
